

Engineering networks and systems. Design, installation

QUALITY, COMFORT, SAFETY

I'd like to ask for your attention for a few minutes:

Here you can find what you or your acquaintances might need now or later.

Whether you are a manager in the construction industry or in some other field, or you are a private individual, you constantly use certain engineering products. And you are also looking for a qualified contractor who will perform engineering work in accordance with his qualifications.

Please order from us or recommend us to other people you know.

Sincerely, the Head of LLC "Alten"

OUR PROPOSAL

- Video surveillance. Closed-circuit TV (CCTV).
- Security alarm systems. Perimeter security. Security control panel.
- Access control or restriction system. Turnstiles. Checkpoints.
- Ventilation, air conditioning.
- Automation. Dispatching. "Smart House".
- Automatic doors. Automatic opening of windows.
- Automatic gates.

We also make:

- Technical maintenance of engineering systems.
- Engineering design.

In addition to the above-mentioned engineering systems, Alten's technical specialists have experience in installing and adjusting some other engineering systems for the needs of the Customer. We are able to solve not only standard tasks.

Please visit us for more details: <https://alten-ua.com>

What you get:

- **Technical product**

After completing all the work, you will receive a modern, fully functional, operating engineering and technical system that is easy to use.

- **Fair price**

The cost of equipment and works corresponds to the market value. Prices are competitive.

- **Technical support**

For us, it is very important to support our customers during the warranty and post-warranty periods. And also to carry out maintenance, if necessary, according to the regulations.

The main stages of solving your task:

- Preliminary assessment of the cost of the engineering system
- Establishment of terms and conditions of work performance
- Calculation of the commercial offer
- Conclusion of the contract
- Installation of works
- Putting the engineering system into operation
- Warranty and maintenance service

The stages of work can be adjusted depending on the types of engineering systems, their purpose, simplified and performed simultaneously

EXPECTED RESULTS

We look forward to a long and mutually beneficial cooperation, satisfaction of your needs and your recommendations to other potential customers of our services.

Our goal: To find the best engineering solution for the Customer in terms of cost, reliability and efficiency.

We provide our customers with affordable, reliable and most efficient engineering and construction solutions.

The ALTEN Company's work style is quality, mobility, prudence in decision-making, and execution of work within a clearly defined time frame.

The technical result of the installation of CCTV systems:

- Security. Control. The simple video surveillance system. Intelligent video surveillance system with video analytics.
- The customer receives a functional engineering system according to their needs.

Technical result of the work on the installation of security alarm systems:

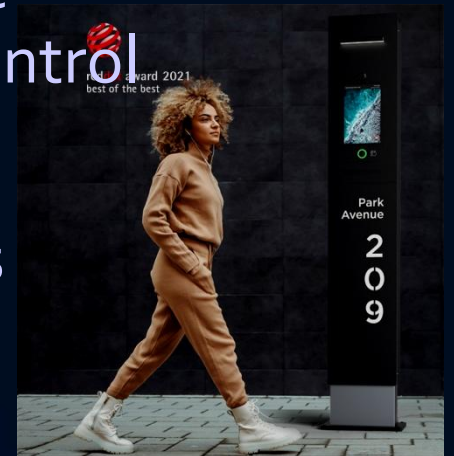

- Safety of property. Protection. Security. Insurance. Alarm system. A comprehensive security system.
- The customer receives an effective defense system.

Technical result of the access control system installation:

- Control. Security. Privacy. Automation. Access control systems with electric locks and other locking devices that allow passage by different identifiers. Access control systems with software that allows you to change access parameters, generate various access reports. The complex access system with automatic access control and various automatic devices, as well as control from other security systems.
- The customer receives an automatic control system that is reliable, efficient and easy to use.

Technical result of the work on the installation of ventilation systems:

- Comfort. Maintaining the temperature conditions. Air exchange in the house. Ventilation system. Air conditioning system. Heat pump.
- The customer gets comfort.

Technical result of work on the installation of automatization systems:

- Comfort. Safety. Energy saving. Process planning and management.
- The customer receives an effective system of management, planning and resource saving.
- "Smart House" helps you feel how your space reaches a new level of comfort.

Technical result of work on the installation of automatic doors and window automation:

- Reliable automatic doors. Sliding automatic doors. Hinged automatic doors. Carousel (revolving) doors for objects with a large crowd of people. Automatic drives for opening windows.
- The customer receives the convenient and reliable automation system for entrance groups and with them in the complex.

Technical result of the installation of automatic gates:

- Convenience. Technological efficiency. Automation. Automatic sliding gates, sectional gates, gate drives. Barriers. Payment systems for parking with barriers and video cameras. Roller shutters.
- The customer receives the convenient and reliable automation system.

Main brands used by ALTEN:

- Video cameras, DVRs **ZetPro** Technology Co., Ltd. (China). **Dahua** Technology Co., Ltd (China). Hangzhou **Hikvision** Digital Technology Co., Ltd. (China).
- Robotic video cameras AUTODOME **Bosch** Security Systems B.V, Robert Bosch GmbH. (Germany).
- Video analytics **ZetPro** Technology Co., Ltd. (China). **INNI** Smart Techno Lab LLC (Ukraine). **Hive UVF** FF Group (Czechia).
- IP intercom systems **BAS-IP** Ltd. (United Kingdom).
- Solar panel with battery **Full Energy**, Shekou Security & Technology Ltd. (China).
- Thermal technologies **MOBOTIX** AG (Germany). **AGM** Global Vision, LLC (USA).
- PoE switches **ZetPro** Technology Co., Ltd. (China). **TP-Link** Technologies Co., Ltd (China). **ZyXEL** Communications Corporation (Taiwan).
- Wi-Fi access points and bridges **Ubiquiti** Networks (USA). **Ruijie** Networks Co., Ltd (China).
- Fiber-optic solutions Future Fibre Technologies (**FFT**) (Headquarters, Australia).

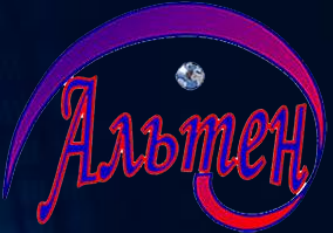

Main brands used by ALTEN:

- Security alarm system **U-PROX** Integrated Technical Vision Ltd (Ukraine), **Ajax** Systems, AS MANUFACTURING LLC (Ukraine), **SATEL** Sp. z o.o. (Poland), **DSC**, Digital Security Controls, (Canada).
- Perimeter protection : Microwave and Doppler; Infrared active (including combined solutions); Electroshock; Radio wave; Vibration; Accelerometer; Microphone; Laser optical; Fiber optic (interferometric, reflectometric); Communication IP ecosystems – **Optex** Co., Ltd (Japan). **Hagroy** Electronic S.A.C. (Peru). **Promin**, Yugo-Zapad (Ukraine). **QuadroSence**, Zmax Kereskedelmi Zrt., (Hungary). **WatchOut**, ROKONET Electronics (Israel). **Cias** Elettronica (Italy). **Perimeth** (Ukraine). **Senstar** Technologies, Ltd (Canada).
- Security remote control **MISTO Security Platform** Tiras Technologies (Ukraine)
- GSM tags, trackers UAB **Teltonika** Telematics (Lithuania). **MT** Guangzhou Unireach Electronic Technology Co., Ltd. (China).
- Security companies, security service reaction teams **Sirius** (Ukraine).
- Flood control systems **ANTIPOTOP**, **Akvarate** Mintex 2 (Ukraine). **Octopus** Electron (Ukraine)
- Fog generators **URFog** S.r.l. (Italy).
- Pepper spray diffuser TM «**PoliceCam**» (Milwaukee, WI, USA).

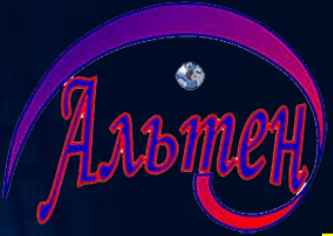

Main brands used by ALTEN:

- Access control systems and restriction systems **U-PROX** Integrated Technical Vision Ltd (Ukraine). **Rosslare** Israel Ltd (Israel).
- Smart locks **ZKTECO** CO., LTD (China).
- Electrical locks **eff eff** ASSA ABLOY AB (Sweden, Finland).
- Biometric data readers **Rosslare** Israel Ltd (Israel). Hangzhou **Hikvision** Digital Technology Co., Ltd. (China). **Dahua** Technology Co., Ltd (China). **ZKTECO** CO., LTD (China).
- Mobile IDs **U-PROX BLE ID** Integrated Technical Vision Ltd (Ukraine).
- Smart cards, ID tags **ARDIX** Systems (Ukraine), RFID tags **GiS** mbH (Germany)
- Vehicle tags **ZKTECO** CO., LTD (China). **Xerafy** Singapore Pte. Ltd (Singapore).
- Three-pod turnstiles, Rotary turnstiles, Wicket turnstiles, Full height turnstiles **Forma**® CS-Group (Ukraine), **ONYX, CENTURION, BASTION, TWIX, GALAXI, SWEEPER, SESAME** TiSO Global (Ukraine).
- Security status post **BAS-IP** Obelisk **BAS-IP** Ltd. (United Kingdom) the product was awarded the prestigious Red Dot award as Best of the Best "Design Concept 2021".

Main brands used by ALTEN:

- Components for local networks **R&M** Reichle & De-Massari AG (Switzerland)
- Cable products - factory «Odeskabel» (Ukraine)
- Automated protection devices **Hager** Group (Germany). **ETIMAT**, ETI Elektroelement d.o.o. (Slovenia). **ABB**, Ltd (headquarters Switzerland).
- Ventilation, air conditioning **DAICO** Sichuan Changhong Electric Co., Ltd (China). **CHIGO** Guangdong Chigo Heating & Ventilation Equipment Co Ltd. (China). **VR** - factory «UKRVENT» (Ukraine) **GlobalStar**, **GreenSTR**, **SkyStar**, **CrossStar**, **EcoStar** VENTSERVICE (Ukraine).
- Heat pumps **GCHV** Guangdong Chigo Heating & Ventilation Equipment Co Ltd. (China). **Altek** DPM (Ukraine, components Carel (Italy), Grundfos (Denmark), Panasonic/Sanyo (Japan), Sanhua (Spain), WoLong (China).

Main brands used by ALTEN:

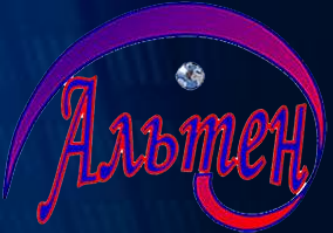

- Automation. "Smart House" **Loxone** Electronucs GmbH (Austria). **KNX** Association (Belgium). Company Home Systems is a member of CEDIA (the Custom Electronic Design and Installation Association No.1 Global Smart Home Technology Association).
- Automatic sliding doors **GEZE** GmbH (Germany). **Tormax** division of LANDERT Group AG (Switzerland). **Ryterna** Group (Lithuania).
- Automatic revolving doors **BESAM** division of ASSA ABLOY Entrance Systems (Sweden). **GEZE** GmbH (Germany).
- Automatic equipment for swing doors **GEZE** GmbH (Germany).
- Automatic window opening system **GEZE** GmbH (Germany).

Main brands used by ALTEN:

- Automatic gates and drives **Hörmann** Group, (Germany). **FAAC** Group (Italy). **CAME** Cancelli Automatici S.p.A. (Italy). **BFT** S.p.A (Italy). **NICE** S.p.A (Italy).
- Anti-clone SG remotes - Pal electronics systems ltd (Israel).
- Payment system for parking lots **LOT** Group (Ukraine). **STOP-Park** CS-Group (Ukraine).
- Engineering constructions **ОБСТ.ХХХХХХ.ХХХ** LLC „ALTEN-TECHNO“ (Ukraine).

As the Company develops, it has the opportunity to represent products of other well-known brands.

QUALITY, COMFORT, SAFETY

ALTEN has successfully implemented many high-tech projects requiring impeccable professionalism and maximum responsibility at such facilities as: Boryspil International Airport, UN Office in Ukraine, Kyiv Prosecutor's Office, State Emergency Service of Ukraine (OSVOD), National Bank of Ukraine and regional departments of the NBU, Naftogaz of Ukraine and many others.
